SUMMARY

Detail-Oriented and highly organized Data Entry Operator with experience in handling large volumes of data with accuracy and efficiency. Proficient in data management tools, spreadsheet applications, and various databases.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, jQuery
- **Backend:** Node.js, Express.js, Java, JDBC, MySQL
- **Version Control & Tools:** Git, IntelliJ IDEA, MySQL Workbench
- **Other Skills:** Web Performance Optimization, SEO, UI/UX, REST API integration, Debugging

Projects

1. Holiday Scheduler – Global Holiday & Leave Management System

Tech Stack: MySQL, Express.js, React.js, Node.js, Calendarific API

- Built a full-stack holiday management platform to display public and user-submitted holidays with categorized views: All, Upcoming (next 30 days), Statistics, and Calendar.
- Integrated the Calendarific API to fetch holidays based on country and organization (e.g., UN, WHO, UK, US) with filter and search capabilities.
- Developed a custom form for users to add their own holidays, stored securely in a separate MySQL table and displayed alongside official holidays.
- Implemented search functionality across multiple tabs to allow real-time filtering of holiday data.
- Designed a clean, responsive UI using **React.js and CSS**, enhancing user experience on both desktop and mobile.

2. Portfolio Website (HTML, CSS, JavaScript)

🔗 [Live Demo](#)

Tech Stack: HTML, CSS, JavaScript:

- Designed and developed a personal portfolio to showcase skills, projects, and contact details.
- Built a responsive and SEO-optimized layout with custom animations and styling.
- Ensured accessibility, clean UI, and cross-device compatibility.

3. React-Node-MySQL Web Application

Frontend: React.js | **Backend:** Node.js | **Database:** MySQL:

- Implemented full CRUD functionality with RESTful APIs.
- Used Concurrently and CORS for smooth frontend-backend integration.
- Focused on SEO, UI/UX, and performance optimization.
